Since 1870, the Bureau has overseen and regulated the business activities of insurance companies, insurers, producers, consultants, and adjusters in Maine. To ensure that the marketing of insurance is lawful and honest, policies and premiums are reasonable and just, and that the payment of legitimate claims is dependable and timely, the Bureau is divided into several work units, each charged with its special responsibility.

Mission Statement

The mission of the Bureau is to protect the public interest and to promote fair competition in the insurance marketplace through the licensing and examination of all authorized insurance companies and regulated workers' compensation self-insurers; through the licensing of producers, brokers, consultants and adjusters; through the review of rates, rules, and policy forms to be utilized in this state, and through providing information and assistance to consumers of insurance products.

Vision Statement

The Maine Bureau of Insurance is a consumer-oriented regulatory team that functions proactively to promote the best in fair and consistent insurance practices, policies, and laws. We strive to serve the public by understanding the needs of consumers and regulated parties in a dynamic and changing environment. This will be achieved by effective communication, use of modern technology, empowering decision-making by Bureau staff and encouraging professional development. We will respect each other and the public we serve and commit ourselves to developing and maintaining a quality workplace.

To assist the Bureau in its mission and vision to promote fair and consistent insurance practices, policies, and laws for the benefit of consumers, the Bureau is a member of the National Association of Insurance Commissioners (NAIC). The NAIC is a voluntary organization of the chief insurance regulatory officials of the 50 states, the District of Columbia, American Samoa, Guam, Puerto Rico and the Virgin Islands. Formed in 1871, it is the oldest association of state officials.

The NAIC provides its members with a national forum through quarterly national meetings to discuss common issues and interests and to work cooperatively on regulatory matters that transcend the boundaries of their own jurisdictions. Every state regulator or designated staff serves on one or more NAIC committees, subcommittees or task forces. The overriding objective of the NAIC is to protect consumers and help maintain the financial stability of the insurance industry.

In 1989, the NAIC established minimum requirements for financial solvency regulation by state insurance departments. The NAIC subsequently adopted a formal certification program where states who demonstrate compliance with NAIC standards are eligible for accreditation. The accreditation process consists of a rigorous review which includes: 1) laws and regulations; 2) company examination and audit reports and supporting work papers; 3) inspection of regulatory files for selected companies; 4) organization, personnel policies and qualifications; 5) interviews with department personnel; and 6) review of Bureau document and communication procedures.

The Bureau was first accredited in 1993 and reaccredited in 1998. The next accreditation review is scheduled for 2003.

The Financial Examination Work Unit

The Financial Examination Work Unit conducts detailed financial examinations of insurers domiciled in the state of Maine. Examinations of the insurers are completed every three to five years and the examination reports are available to the public on completion. The work unit consists of a Director, two Examiners-in-Charge, two Senior Examiners, and five Examiners. Personnel are divided into two examination teams in order to conduct examinations concurrently. Exam reports for the domestic insurers who have had an examination report issued can be found on the Bureau web site www.MaineInsuranceReg.org at www.state.me.us/pfr/ins/domestic.htm. Financial statements for Maine licensed HMOs may also be accessed from the Bureau web site at www.state.me.us/pfr/ins/inshmo.htm.

Financial Analysis and Alternative Risk Markets

The Financial Analysis and Alternative Risk Markets work unit is responsible for monitoring the financial solvency of insurers transacting business in Maine. Insurance companies seeking licensure and new workers' compensation self-insurers submit financial and operational information for review. Analysts review the information and make recommendations for insurance authority, based upon the financial strength of the company.

For new applicants a full analysis of the financial statements is completed. Once the Bureau grants authority, the level of ongoing financial review is predicated on the entity's status as an insurance company or a workers' compensation self-insurer.

If the entity is an insurance company, the level of review is further determined by whether the company is a Maine domestic or a foreign insurer. Maine domestics are reviewed in detail on a quarterly basis; foreign insurers are prioritized based on select financial ratios.

For workers' compensation self-insured employers and groups, the work unit performs detailed annual reviews. Self-insurance authority is renewed annually, unless evidence of deteriorated financial condition is found.

The Financial Analysis and Alternative Risk Markets work unit is also responsible for reviewing captive insurance applicants, surplus lines applicants, multiple employer welfare arrangements, and continuing care retirement communities.

Producer Licensing

The Producer Licensing Unit is responsible for the review and approval of applications to license individual producers, consultants, adjusters, business entities, and to register structured settlement transferees. Processing includes a determination if eligibility requirements have been met and whether the applicant is competent, trustworthy, financially responsible and of good personal and business reputation. The NAIC's (National Association of Insurance Commissioner's) Producer Licensing Model Act was enacted into law in 2001 as part of our ongoing effort to create a system of reciprocity and uniformity among all states in the area of producer licensing.

Producer Licensing Statistics

(Prior Years: 2001 Total: 6,617; 2000 Total: 7,079)

(Prior Years: 2001 Total: 29,248; 2000 Total: 30,352)

The Consumer Health Care Division

The Consumer Health Care Division (CHCD) has ten staff members who provide a wide range of services to consumers including information regarding health care plan options and services; helping enrollees to understand their rights and responsibilities under health care plans; providing assistance to enrollees with complaints related to health care plans; and promoting coordination between the Bureau and other organizations that assist consumers.

The Consumer Health Care Division is responsible for the review and approval of health insurance policy forms, health plan compliance with Maine law, and the investigation and resolution of health insurance complaints.

The CHCD focuses much of its efforts on the Bureau's complaint handling process. The focus in handling complaints has broadened from simply resolving complaints, to conducting the in-depth investigations necessary to identify underlying issues that often give rise to complaints. Identification of deficiencies in insurer processes provides an opportunity for the Bureau to work with health plans to prevent reoccurrence of identified problems. The CHCD investigates complex complaints involving adverse determinations of medical necessity, and speaks regularly with health care providers and insurer utilization review staff.

The CHCD conducts extensive public outreach. Members of the CHCD staff are frequently invited to address various groups ranging from consumer and health care provider advocacy organizations to health underwriters and local school superintendents. This past year, CHCD staff presented information at ten different meetings, explaining health insurance and complaint handling procedures.

The CHCD processed 53 requests for external review in 2002 (32 in 2001). Of the 53 cases received, 30 upheld the decision of the health plans and 9 cases resulted in a reversal of the carrier's decision. In 12 cases, the carrier reversed its decision before the external review hearing. In two cases, the enrollee withdrew the request for the external review before the review was completed.

The CHCD also received 7 requests for external review that did not qualify under the statute, either because the consumer had not exhausted both levels of the insurance carrier's internal appeal process, or because the denials were based on coverage issues rather than medical issues.

The CHCD worked with members of the Department of Human Services to conduct quality reviews of two HMOs licensed in Maine. The members of this survey team included one nurse from the Bureau of Medical Services (BMS), two consultants affiliated with the Muskie Institute, and the Health Policy Analyst from the Consumer Health Care Division. In 2002, the survey team conducted its analysis of CIGNA and Anthem Blue Cross.

Rate and form filings received	2,469	1,693	2,285

*See graphs in Appendix B for a break down by month for the year 2002.

Life and Disability Work Unit

The Life and Disability Work Unit has two principal functions: the review of insurer policy form filings for life, disability, and annuity products and the resolution of consumer complaints related to those lines of insurance, including viatical settlements.

Prior to the sale of any insurance contract in Maine, policy forms (including contracts, certificates, riders, endorsements, and applications) are reviewed, analyzed, and approved based on Maine's insurance laws. The Unit also responds to telephone inquiries and formal complaints relative to life, disability, and annuity-related problems.

Life and Disability Totals *

	2002	2001	2000

The **Life & Health Actuarial Work Unit** provides actuarial and technical services to Bureau staff involving life and health insurance. Examples of tasks performed by the unit include:

- Reviews and takes appropriate action on rate filings for regulated lines of insurance, primarily individual health, credit life and health, group and individual Medicare supplement, and long-term care.
- Provides reserve analysis of life and health insurance companies as required by the Maine law.
- Provides technical assistance to insureds, consumers, other state agencies, and others on insurance matters.
- Prepares annual reports on mandated benefits claims experience.
- Studies proposed mandated benefit legislation as requested by the Legislature to determine the social impact, the financial impact, and the medical efficacy of the proposed mandate.

The Bureau is responsible for issuing a number of annual reports regarding selected *Mandated Benefits*. These reports compare the amount of claims paid for mandated benefits to the total amount of health claims paid.

Mammograms – Report of the Superintendent of Insurance on Health Insurance Claims for Mammography and Breast Cancer Treatment.

Chiropractic – Report of the Superintendent of Insurance on Health Insurance Claims for Chiropractic Services.

Mental Health/Substance Abuse – Report of the Superintendent of Insurance on Health Insurance Claims for Alcoholism and Drug Dependency Treatment and For Mental Health Services.

These mandated reports are available on the Bureau's web site at www.MaineInsuranceReg.org under *Bureau Reports*.

Property & Casualty

The Property & Casualty Work Unit reviews and approves rates, rating rules, and policy forms that property and casualty insurance companies and advisory organizations file for products they intend to write in Maine. Filings are reviewed to ensure compliance with applicable Maine law.

The unit also investigates complaints for all lines of property and casualty insurance. Often this includes conducting administrative hearings when a consumer has their automobile or homeowner's policy canceled or non-renewed.

Property & Casualty Totals *

	2002	2001	2000
Consumer complaints received	716	754	626
Consumer complaints closed	663	745	635
Consumer inquiries/phone calls received	10,242	10,046	8,002
Amount of restitution to consumers	\$426,884	\$402,306	\$288,901
Rate/Form filings	3,756	3,277	3,510

*See graphs in Appendix B for a break down by month for the year 2002.

Hearings: When an insurance company issues a notice of cancellation or nonrenewal on a homeowner or auto policy, the company is required to advise the insured that they may request a hearing to contest the action. The hearing provides a forum to dispute the reason (s) and requires the Bureau to rule whether the cancellation or nonrenewal was done in accordance with Maine law.

Number of Hearings Scheduled in 2002 – 490 (Prior Years: 2001 – 127 scheduled; 2000 – 168 scheduled)

	2002	2001	2000
Number of Decisions Issued	233	89	119
Findings for the Consumer	146	43	66

Property/Casualty Actuarial

The Property/Casualty Actuarial work unit provides actuarial and technical services to the Bureau staff with property and casualty lines of insurance. Examples of tasks performed by the work unit include:

- Reviews rate and rating rule filings for market leaders.
- Reviews and analyzes loss cost filings by industry advisory organizations which gather experience and file the advisory loss portion to be used by insurers in establishing rates and rating rules.
- Collects the information, calculates, and authorizes the premium distribution for the Rural Medical Access Program. This program subsidizes those physicians and surgeons that provide prenatal and obstetrical services in designated underserved areas of the state.
- Reviews funding and reserves of workers' compensation self-insurance trusts.
- Provides reserve analysis of property/casualty insurance companies.
- Provides technical assistance to insureds, consumers, other state agencies, and others on insurance related matters.

- Provides technical assistance to the Superintendent in all aspects of workers' compensation matters.
- Administers the Large Commercial Risk special rating law provisions.

Workers Compensation Work Unit

The Workers' Compensation Unit is responsible for processing all rate, rule, and form filings presented to the Bureau involving workers compensation insurance, self-insurance reinsurance, and occupational disability policies. In addition to these filings, the work unit assists the actuarial staff with the workers' compensation loss cost filing.

The unit responds to general inquiries regarding workers' compensation premiums and policies and handles complaints regarding workers' compensation insurance rates, rules, and policy cancellations. Complaints regarding specific workers' compensation claims are under the jurisdiction of the Workers' Compensation Board, however, if the Workers' Compensation Board finds a pattern of abuse, it can refer the matter to the Bureau.

The Market Conduct Work Unit

The Market Conduct Unit conducts examinations that look at the market practices of both domestic and foreign insurers that vary in scope and may be prompted by various occurrences.

Recent examinations by the work unit:

Company	Type of Examination	Report Issued
Bankers Life & Casualty Company	Comprehensive	Pending
Unum Life Insurance Company of America	Comprehensive	February 8, 2002

Presentations/Outreach Participation by Bureau Staff in 2002

As part of the Bureau's commitment to public education, the Bureau publishes a quarterly newsletter, *The Maine Insurance Update*. This newsletter was first published in 1990 and is also available free by electronic subscription. The three most recent issues are posted on the Bureau's Web site: www.MaineInsuranceReg.org with instructions on how to subscribe electronically.

The Bureau is committed to public education and service and exemplifies this through staff presentations at various functions throughout the year. These presentations provide an opportunity to explain the Bureau's regulatory role, as well as provide information on a variety of insurance topics. Among the audiences in 2002 were:

Hospital administrators,
Industry underwriters and marketing representatives,
Managed care regulators,

Insurance Regulatory Examiner's Society,
Maine Retired Teachers Association,
Group self-insurers, *and*
The Maine Health Care Association

The Bureau also participated at the Governor's Annual Small Business Conference which provided an opportunity to address insurance problems related to small business.

In addition, the Superintendent was a featured speaker at the following events:

Maine Insurance Agents Association Annual Conference
A.M. Best Review Preview
Maine CPCU Society
Institute for Family Owned Business
Retail Lumber Dealers Association of Maine
BMA Reinsurance
NCOIL (National Conference of Insurance Legislators)
NAIC Commissioner's Forum
Society of Financial Service Professionals
International Association of Insurance Supervisors
Organization for Cooperation & Economic Development (OECD)

Bureau Publications

To help educate the public on insurance matters that can affect their daily lives, the Bureau publishes and distributes a number of consumer brochures.

The following brochures are available from the Bureau. Most brochures, with the exception of the federal guide, are available on-line at the Bureau's web site (www.MaineInsuranceReg.org):
